## EMPLOYMENT SURVEY and REGISTRATION

The Housing Authority of the City of Augusta, Georgia (AHA) is committed to helping the residents of its communities achieve their goals of self-sufficiency by providing opportunities for training and employment. AHA provides employment opportunities on construction projects by encouraging its contractor to hire qualified residents of AHA communities, connecting residents to job training and placement activities, and providing program coordination that facilitates economic opportunities for residents. AHA also provides employment opportunities by hiring qualified residents of AHA communities for available AHA positions.

Section 3 of the Housing and Urban Development Act of 1968, as amended by the Housing and Community Development Act of 1994, requires that, to the greatest extent feasible, employment and other economic opportunities generated by HUD funds be directed to low- and very low-income residents. To this end, AHA will implement efforts to have a ready pool of public housing residents to fill the positions offered by the AHA, its contractors, or subcontractors.

To accomplish this goal, the AHA is conducting a Resident Survey and Registration. A copy of this survey is included in this issue of the **Resident Spotlight**. AHA encourages any residents seeking employment to complete this survey and return it to their Management Office or the Resident Services Office at the Reid Administration Building. Or, a resident may complete the survey on-line by going to [www.augustapha.org/section3](http://www.augustapha.org/section3).
